## Hackathon26

The hackathon is on Friday 19 June at the Royal Docks Centre for Sustainability on UEL's Docklands campus

There will be lots of people there and it will be noisy and busy

If you need a quiet space, please ask a member of staff

This is an inclusive hackathon, and free to everyone with a ticket

There will be a mix of people with and without disabilities, students and staff from UEL, and people from other countries at the event

If you need any help with anything, look for someone with a lanyard with a hand on it and they will help you

We will start at 10am and finish at 5pm

We will have lunch just after midday and a break in the afternoon

The hackathon will start with Ajay sharing some tips on how to include everyone in today's event

We will look at the challenges we have set ourselves for this year's hackathon and choose which ones we want to work on

Then we go into our table groups - the tables should be as mixed as possible so please don't just sit with your friend or colleague!

On our tables, we will begin to share ideas about the challenge

We can use pens, paper, card and other craft materials to help us model our ideas and solutions

We'll go back to our tables after lunch and keep working on our ideas

In the third session, after tea, we'll work on our table's presentation

Then we all come back together and present our ideas to everyone

We will then choose the winner of RIX Hackathon26
